BP Internship 2025 Program For Recent Graduates

Description

BP is seeking an Environmental Health and Safety Specialist to join our team dedicated to promoting a culture of safety and environmental responsibility across our operations. The successful candidate will play a crucial role in ensuring compliance with regulatory requirements, minimizing environmental impact, and fostering a safe working environment for our employees and contractors.

Responsibilities

- Conduct regular safety and environmental inspections, audits, and assessments at BP facilities.
- Develop and implement safety and environmental management systems.
- Collaborate with cross-functional teams to identify potential hazards and recommend corrective actions.
- Maintain and update safety and environmental policies and procedures in accordance with industry standards and regulations.
- Provide training and support to employees and contractors on safety and environmental best practices.
- Investigate incidents, accidents, and near-misses, and develop root cause analysis reports.
- Monitor and report on key performance indicators related to safety and environmental performance.
- Ensure compliance with federal, state, and local regulations and permits.
- Participate in emergency response and preparedness activities.

Qualifications

- Bachelor's degree in Environmental Science, Occupational Health and Safety, or related field (Master's degree preferred).
- Certified Safety Professional (CSP) or equivalent certification is a plus.
- Minimum of 3-5 years of experience in environmental health and safety roles, preferably in the energy or petrochemical industry.
- Strong knowledge of environmental regulations, safety standards, and industry best practices.
- Excellent communication and interpersonal skills.
- Analytical mindset with the ability to identify and mitigate risks effectively.

Experience

- Minimum 3-5 years of experience in environmental health and safety roles.
- Experience in the energy or petrochemical industry is a plus.
- Proven track record of implementing safety and environmental programs.

Skills

- Strong knowledge of environmental regulations and safety standards.
- Excellent analytical and problem-solving skills.
- Effective communication and interpersonal abilities.
