

Centrica Summer Internship 2025 Program For Students

Description

Centrica is seeking a highly motivated Energy Analyst to join our dynamic team. As an Energy Analyst, you will play a pivotal role in helping Centrica optimize energy usage and reduce environmental impact. You will work closely with cross-functional teams to analyze energy data, develop energy-saving strategies, and contribute to our commitment to sustainability.

Responsibilities

- Collect and analyze energy consumption data from various sources.
- Develop and maintain energy usage reports and dashboards.
- Identify trends and anomalies in energy data to optimize energy efficiency.
- Collaborate with internal teams to implement energy-saving initiatives.
- Research and recommend innovative energy-saving technologies and solutions.
- Monitor and report on the progress of energy efficiency projects.
- Stay up-to-date with industry trends and regulations related to energy management.
- Assist in the development of sustainability and energy conservation programs.
- Provide insights and recommendations to senior management.

Qualifications

- Bachelor's degree in Environmental Science, Engineering, or related field.
- Proven experience in energy analysis or a related role.
- Knowledge of energy management systems and software.
- Strong analytical and problem-solving skills.
- Excellent communication and interpersonal skills.
- Ability to work independently and collaboratively in a team.
- Knowledge of environmental regulations and sustainability practices.

Experience

- 2-5 years of experience in energy analysis or a related field.
- Experience with data analysis tools and software.
- Familiarity with energy management systems and sustainability practices.

Skills

- Data analysis and interpretation.
- Proficiency in Microsoft Excel and data visualization tools.
- Strong communication and presentation skills.
- Project management and organizational skills.
- Knowledge of energy conservation principles.
- Attention to detail and accuracy.
