

Exxonmobil Internship Application Instrumentation & Electrical Technician

Description

ExxonMobil offers exciting internship opportunities for individuals who are looking to gain practical experience and develop their skills in the oil and gas industry. If you are interested in pursuing a career as an Instrumentation & Electrical Technician, then the ExxonMobil Internship in Baytown is the perfect opportunity for you.

The ExxonMobil Internship in Baytown provides a unique learning experience for aspiring Instrumentation & Electrical Technicians. You will be part of a dynamic team that works on state-of-the-art equipment and technology. As an intern, you will gain hands-on experience in troubleshooting, maintenance, and repair of electrical and instrumentation systems.

Responsibilities

During your internship, you will be responsible for the following:

- Troubleshooting and diagnosing electrical and instrumentation issues
- Conducting routine maintenance and repairs on electrical and instrumentation equipment
- Installing and configuring new electrical and instrumentation systems
- Performing calibration and testing of instruments and control systems
- Maintaining accurate records of maintenance and repair activities

Qualifications

To be eligible for the ExxonMobil Internship in Baytown, you must meet the following qualifications:

- Currently enrolled in a relevant technical program such as Electrical Engineering or Instrumentation Technology
- Completed at least two years of coursework in your program
- Possess a minimum GPA of 2.5
- Be authorized to work in the United States without sponsorship

Experience

While prior work experience is not required, any relevant experience in electrical or instrumentation work will be considered a plus.

Skills

The ideal candidate for this internship should possess the following skills:

- Strong analytical and problem-solving skills
- Excellent communication and interpersonal skills
- Ability to work in a team environment
- Attention to detail and ability to work independently
- Knowledge of electrical and instrumentation systems and technology
