Google Mba Internship 2025 UX Researcher For Students

Description

Are you an MBA student or recent graduate passionate about user research and design thinking? If so, the Google MBA Internship UX Researcher Program in London is an excellent opportunity to gain hands-on experience in the tech industry. In this blog post, we will delve into what the Google MBA Internship entails, the responsibilities you can expect to have, the required qualifications, the necessary skills, the job benefits, and how to get in touch with the program's contacts.

The Google MBA Internship UX Researcher Program in London is an 11-12 week paid internship designed for MBA students interested in gaining practical experience in user research and design thinking. Interns will work with cross-functional teams, conducting research to understand the user's needs, behaviors, and motivations. The program aims to provide participants with exposure to Google's culture, values, and innovation in user experience design.

Responsibilities

As a UX Researcher intern, you can expect to have the following responsibilities:

- Conducting user research using various methods, such as usability testing, surveys, and interviews.
- Analyzing research data and communicating insights to cross-functional teams.
- Collaborating with product managers, designers, and engineers to develop user-centric solutions.
- Contributing to design thinking workshops and brainstorming sessions.
- Presenting research findings and recommendations to stakeholders.

Qualifications

To be considered for the Google MBA Internship UX Researcher Program in London, you must meet the following qualifications:

- Currently enrolled in an MBA program or graduated in the last year.
- Strong academic record, with a minimum GPA of 3.0.
- Familiarity with user research methods and design thinking principles.
- Excellent communication and interpersonal skills.
- Ability to work in a team environment.
- Experience with data analysis tools, such as Excel or SPSS.

Experience

While prior experience in UX research is not required for this program, candidates who have completed relevant coursework or internships will be given preference. Additionally, candidates who have demonstrated leadership skills through extracurricular activities or volunteer work will also be considered favorably.

Skills
