Hindalco Industries Paid Internship Summer Program For Undergraduates

Description

Hindalco Industries is a leading global aluminum and copper producer, with a strong presence in various sectors such as metals, packaging, and rolling. We are committed to sustainability, innovation, and creating value for our customers and stakeholders. Join us in our journey to shape the future of the metals industry.

We are seeking a dedicated and motivated Process Engineer to join our team at Hindalco Industries. The Process Engineer will play a crucial role in optimizing and improving our manufacturing processes, ensuring product quality, and enhancing operational efficiency. If you are passionate about process improvement and have a strong background in engineering, we encourage you to apply.

Responsibilities

- Analyze existing manufacturing processes and identify areas for improvement.
- Develop and implement process optimization strategies to enhance efficiency and reduce costs.
- Collaborate with cross-functional teams to troubleshoot and resolve process-related issues.
- Monitor production parameters and recommend adjustments to maintain product quality.
- Conduct root cause analysis for process deviations and implement corrective actions.
- Participate in process safety assessments and ensure compliance with safety regulations.
- Prepare and maintain process documentation, including standard operating procedures (SOPs).
- Provide training and guidance to production personnel on new processes and equipment.
- Stay updated with industry trends and emerging technologies to suggest innovative solutions.

Qualifications

- Bachelor's degree in Chemical Engineering or a related field (Master's degree preferred).
- Proven experience in process engineering within the manufacturing industry.
- Knowledge of process simulation and optimization tools.
- Familiarity with safety standards and regulations.
- Strong analytical and problem-solving skills.
- Excellent communication and teamwork abilities.
- Project management skills and the ability to meet deadlines.
