## Hindustan Petroleum Internship Program For Recent Graduates

### Description

As a Refinery Operations Manager at Hindustan Petroleum Company, you will play a critical role in overseeing and optimizing the daily operations of our refinery facilities. You will be responsible for ensuring the safe and efficient production of petroleum products while adhering to environmental, health, and safety standards. This is a leadership position that requires a strong understanding of refinery processes, excellent communication skills, and the ability to manage a team of skilled professionals.

### Responsibilities

- Oversee the day-to-day operations of the refinery, including production, maintenance, and logistics.
- Ensure compliance with all safety, environmental, and regulatory standards.
- Develop and implement operational strategies to improve efficiency, reduce costs, and enhance product quality.
- Lead a team of supervisors and operators, providing guidance, training, and support.
- Monitor key performance indicators and production metrics to drive continuous improvement.
- Collaborate with other departments, such as engineering and supply chain, to optimize refinery operations.
- Troubleshoot operational issues and implement corrective actions.
- Prepare and manage the refinery's budget, controlling costs and expenses.
- Foster a culture of safety, teamwork, and continuous improvement among refinery staff.

### Qualifications

- Bachelor's degree in chemical engineering or a related field (Master's degree preferred).
- Minimum of 10 years of experience in refinery operations, with at least 5 years in a managerial role.
- Strong knowledge of refinery processes, equipment, and technologies.
- Familiarity with safety and environmental regulations in the petroleum industry.
- Excellent leadership, communication, and interpersonal skills.
- Proven ability to manage a diverse team and drive results.
- Analytical mindset and problem-solving abilities.
- Strong organizational and project management skills.

### Experience

- Minimum 10 years of experience in refinery operations.
- 5 years of experience in a managerial role.
- Experience in managing teams of refinery operators and supervisors.
- Demonstrated success in optimizing refinery operations and achieving
