Indian Oil Corporation Internship Program For Undergraduates

Description

We are seeking a Senior Engineer for our Refinery Operations team in Mumbai. The Senior Engineer will play a crucial role in ensuring the safe, efficient, and environmentally compliant operation of our refinery units. This position requires a deep understanding of refinery processes and strong leadership skills.

Responsibilities

- Monitor and optimize refinery unit operations to maximize efficiency and production.
- Ensure compliance with safety and environmental regulations and promote a culture of safety within the team.
- Troubleshoot and resolve operational issues to minimize downtime and maintain product quality.
- Collaborate with cross-functional teams to implement process improvements and upgrades.
- Mentor and train junior engineers and operators.
- Participate in incident investigations and root cause analysis.
- Prepare reports and documentation related to unit operations.

Qualifications

- Bachelor's degree in Chemical Engineering or a related field.
- Minimum of 5 years of experience in refinery operations.
- Strong knowledge of refinery processes and equipment.
- Excellent problem-solving and decision-making skills.
- Effective communication and leadership abilities.
- Familiarity with safety and environmental regulations.

Experience

Minimum 5 years of experience in refinery operations, including hands-on experience with unit operations and process optimization.

Skills

- Proficiency in refinery process simulation software (e.g., HYSYS, Aspen Plus).
- Strong analytical and troubleshooting skills.
- Leadership and team management abilities.
- Knowledge of safety protocols and environmental compliance.
- Effective communication and interpersonal skills.

Job Benefits

- Competitive salary and performance-based bonuses.
- Comprehensive health and wellness benefits.
- Retirement and pension plans.
