JSW Steel Ltd Summer Internship Opportunities For Recent Graduates

Description

JSW Steel Ltd is seeking a highly motivated and experienced Electrical Engineer to join our dynamic team. As an Electrical Engineer, you will play a critical role in ensuring the reliability and efficiency of our electrical systems and equipment within our steel manufacturing facility. You will work on various projects, maintenance activities, and troubleshooting tasks to support our ongoing operations and contribute to our commitment to excellence in steel production.

Responsibilities

- Perform preventive and corrective maintenance on electrical equipment and systems.
- Troubleshoot and diagnose electrical issues, ensuring timely repairs and minimal downtime.
- Collaborate with the maintenance team to schedule and execute maintenance activities.
- Participate in electrical project planning, design, and implementation.
- Conduct regular inspections to identify potential hazards and ensure compliance with safety standards.
- Maintain accurate records of maintenance and repair activities.
- Provide technical support to production and operations teams.
- Stay updated on industry trends and best practices in electrical engineering.

Qualifications

- Bachelor's degree in Electrical Engineering or related field.
- Professional engineer (PE) license is a plus.
- Minimum of 3-5 years of experience in electrical engineering, preferably in an industrial or manufacturing setting.
- Proficiency in electrical design software and CAD tools.
- Strong knowledge of electrical codes, standards, and regulations.
- Excellent problem-solving and troubleshooting skills.
- Effective communication and teamwork abilities.
- Strong commitment to workplace safety.
