## Liberty GlobalInte Internship 2025 Opportunities For Students

### Description

Liberty Global is seeking a Senior Network Engineer to join our dynamic and innovative team. As a global telecommunications and broadband company, we are at the forefront of shaping the future of connectivity. In this role, you will play a crucial part in maintaining and enhancing our network infrastructure to deliver cutting-edge services to our customers. If you are passionate about network technologies, enjoy solving complex problems, and thrive in a collaborative environment, we want to hear from you.

### Responsibilities

- Design, implement, and maintain network solutions to ensure optimal performance, security, and scalability.
- Troubleshoot and resolve network issues, collaborating with cross-functional teams to minimize downtime and service disruptions.
- Conduct regular network performance analysis and capacity planning to anticipate and address network growth requirements.
- Implement and manage network security protocols and practices to safeguard Liberty Global's data and assets.
- Participate in technology evaluations and make recommendations for network hardware and software upgrades.
- Collaborate with vendors and partners to ensure the procurement and deployment of reliable network equipment.
- Document network configurations, procedures, and best practices.
- Provide mentorship and guidance to junior network engineers.
- Participate in on-call rotation for after-hours support as needed.

### Qualifications

- Bachelor's degree in Computer Science, Information Technology, or a related field (Master's degree preferred).
- Proven experience as a network engineer or similar role, with a minimum of [X] years in a senior or lead capacity.
- Cisco Certified Network Professional (CCNP) or equivalent certification is highly desirable.
- Strong knowledge of network protocols, including TCP/IP, BGP, OSPF, and MPLS.
- Experience with network virtualization technologies such as SDN and NFV.
- Proficiency in network monitoring and management tools.
- Excellent problem-solving skills and the ability to work well under pressure.
- Strong communication and interpersonal skills.

### Experience

- 3 years of relevant experience in network engineering.
- Experience in a global telecommunications or broadband company is a plus.

### Hiring organization

Liberty Global

### Employment Type

Intern

### Duration of employment

6 months

### Industry

Telecommunications, Mass media

### Job Location

London, England, UK, E1, London, England, UK

### Working Hours

8

### Base Salary
