Linde Summer Internship Program For Students

Description

We are seeking a dedicated Production Technician to join our team at Linde, a global leader in industrial gases and engineering. As a Production Technician, you will play a crucial role in ensuring the safe and efficient production of industrial gases, meeting quality standards, and maintaining a clean and organized work environment.

Responsibilities

- Operate and maintain production equipment such as compressors, distillation columns, and storage tanks.
- Monitor and control the production process to meet safety and quality standards.
- Perform routine maintenance and troubleshoot equipment issues.
- Safely handle and transport hazardous materials in accordance with company procedures and regulatory guidelines.
- Collaborate with team members to optimize production processes.
- Follow safety protocols and actively participate in safety meetings and training.
- Document production activities and maintain accurate records.
- Ensure compliance with environmental regulations and company policies.
- Participate in emergency response procedures as needed.

Qualifications

- High school diploma or equivalent (Associate's degree in a related field is a plus).
- Proven experience in a similar role, preferably in the industrial gas or chemical manufacturing industry.
- Knowledge of production equipment and processes.
- Strong attention to safety and quality.
- Ability to work in a physically demanding and potentially hazardous environment.
- Effective communication and teamwork skills.
- Basic computer skills for data entry and recordkeeping.
- Willingness to work in shifts, including nights and weekends as needed.

Experience

- 2+ years of experience in a production or manufacturing role (preferred).
- Experience with industrial gas production processes (a plus).
- Familiarity with regulatory requirements for handling hazardous materials.

Skills

- Strong mechanical aptitude.
- Problem-solving skills.
- Attention to detail.
