## MRPL Summer Internship Opportunities For Recent graduates

### Description

MRPL is seeking a talented Senior Process Engineer to join our dynamic team in Mangalore. As a Senior Process Engineer, you will play a crucial role in ensuring the safe and efficient operation of our refinery and petrochemical facilities. You will collaborate with cross-functional teams to optimize processes, troubleshoot operational issues, and drive continuous improvement initiatives.

### Responsibilities

1. Monitor and analyze process data to identify areas for improvement and efficiency optimization.
2. Develop and implement process improvements, including technology upgrades and procedural changes.
3. Provide technical support to production teams to ensure smooth operations and resolve process-related issues.
4. Conduct process simulations and modeling to assess performance and recommend enhancements.
5. Participate in HAZOP studies and safety reviews to maintain a safe working environment.
6. Prepare and maintain process documentation, including P&IDs, SOPs, and process flow diagrams.
7. Collaborate with maintenance and reliability teams to improve equipment performance.
8. Train and mentor junior engineers and technicians.
9. Stay current with industry trends and emerging technologies.

### Qualifications

- Bachelor's degree in Chemical Engineering or related field. Master's degree preferred.
- Minimum of 5 years of experience in process engineering within a petrochemical or refinery setting.
- Proficiency in process simulation software (e.g., Aspen HYSYS, PRO/II).
- Strong knowledge of process safety management and HAZOP analysis.
- Excellent problem-solving and analytical skills.
- Effective communication and teamwork abilities.

### Experience

- Bachelor's degree: 5+ years of relevant experience.
- Master's degree: 3+ years of relevant experience.

### Skills

- Process simulation and modeling.
- Process optimization and troubleshooting.
- Strong knowledge of refinery and petrochemical processes.
