## Shell plc Internship 2025 Program For Students

### Description

Shell plc is a global energy company with a rich history spanning over a century. We are committed to meeting the world's growing demand for energy in a responsible and sustainable manner. Our diverse portfolio includes oil, gas, renewable energy, and innovative technologies. We are looking for an Environmental Sustainability Manager to join our team and help drive our commitment to environmental stewardship and sustainability.

As an Environmental Sustainability Manager at Shell plc, you will play a pivotal role in shaping and implementing our environmental sustainability strategy. You will work closely with cross-functional teams to ensure that our operations align with our sustainability goals and regulatory requirements. This role offers an exciting opportunity to make a real impact on the future of energy and the environment.

### Responsibilities

- Develop and implement Shell's global environmental sustainability strategy, aligning with our commitment to reduce carbon emissions and environmental impact.
- Monitor and analyze environmental performance data to identify areas for improvement and ensure compliance with local and international regulations.
- Collaborate with internal and external stakeholders to promote sustainability initiatives, build partnerships, and drive positive change.
- Lead environmental impact assessments for new projects and acquisitions, providing recommendations for mitigation and sustainable practices.
- Stay current with industry trends, best practices, and emerging technologies in environmental sustainability.
- Prepare and present reports on environmental performance, progress, and achievements to senior management and external stakeholders.

### Qualifications

- Bachelor's degree in Environmental Science, Environmental Engineering, or a related field; advanced degree preferred.
- Minimum of 5 years of experience in environmental sustainability or related roles, with a proven track record of managing sustainability initiatives.
- Strong knowledge of environmental regulations, standards, and reporting frameworks.
- Excellent project management skills with the ability to lead and coordinate cross-functional teams.
- Effective communication and stakeholder engagement skills.
- Analytical mindset with proficiency in data analysis tools and software.
- Passion for environmental sustainability and a commitment to driving positive change.

### Experience

### Hiring organization

Shell plc
