# Steel Authority of India Internship Program For Students

# Description

Steel Authority of India (SAIL) is seeking a highly motivated and skilled Senior Engineer to join our dynamic team in the steel manufacturing division. As a Senior Engineer, you will play a crucial role in ensuring the efficient and safe production of high-quality steel products. If you are passionate about steel manufacturing and are looking for an opportunity to contribute to one of India's leading steel producers, we encourage you to apply.

# Responsibilities

- Oversee day-to-day operations of the steel manufacturing process, including blast furnace, rolling mills, and other production units.
- Monitor production parameters to ensure quality and efficiency targets are met.
- Collaborate with cross-functional teams to optimize production processes and resolve technical issues.
- Implement safety protocols and ensure a safe working environment for all team members.
- Train and mentor junior engineers and production staff.
- Conduct root cause analysis and implement corrective actions to address production bottlenecks and defects.
- Maintain records and reports related to production, quality, and maintenance activities.

#### Qualifications

- Bachelor's degree in Metallurgical Engineering, Materials Science, or a related field.
- Minimum of 5 years of experience in steel manufacturing or metallurgy.
- Strong understanding of steelmaking processes, including blast furnace operations, rolling, and heat treatment.
- Knowledge of quality control, process optimization, and safety protocols.
- Excellent problem-solving and analytical skills.
- · Strong leadership and communication abilities.
- Familiarity with industry standards and regulations.

# Experience

- Bachelor's degree: 5+ years in steel manufacturing or metallurgical roles.
- Master's degree: 3+ years in steel manufacturing or metallurgical roles.
- Doctorate: 1+ years in steel manufacturing or metallurgical roles.

# **Skills**

- Technical proficiency in steel manufacturing processes.
- · Quality control and process optimization.
- Strong analytical and problem-solving skills.
