Tech Mahindra Internship 2025 Opportunities For Students

Description

Tech Mahindra is seeking a talented and motivated Software Engineer to join our dynamic team. As a Software Engineer, you will be responsible for designing, developing, and maintaining software solutions that meet the needs of our clients. You will work on a variety of projects and collaborate with cross-functional teams to deliver high-quality software products.

Responsibilities

- Collaborate with product managers and stakeholders to understand project requirements.
- Design and develop software solutions using cutting-edge technologies.
- Write clean, efficient, and maintainable code.
- Perform code reviews and provide constructive feedback to team members.
- Debug and troubleshoot software issues to ensure optimal performance.
- Work closely with QA teams to ensure software quality through testing and validation.
- Stay up-to-date with industry trends and technologies to make recommendations for improvements.
- Participate in Agile development processes and contribute to sprint planning and daily stand-ups.

Qualifications

- Bachelor's degree in Computer Science, Software Engineering, or a related field.
- Proven experience in software development, including coding, testing, and debugging.
- Strong understanding of software development methodologies and best practices.
- Proficiency in one or more programming languages such as Java, Python, C++, or JavaScript.
- Knowledge of software design patterns and architectural principles.
- Excellent problem-solving and analytical skills.
- Strong communication and teamwork skills.

Experience

- Minimum of 5 years of experience in software development.
- Experience working in Agile development environments is a plus.

Skills

- Proficiency in one or more programming languages.
- Strong problem-solving and debugging skills.
- Knowledge of software design principles and best practices.
- Excellent communication and collaboration skills.
