Vedanta Resources Summer Internship Opportunities For Recent Graduates

Description

Vedanta Resources is seeking an experienced Environmental Compliance Manager to join our dynamic team. As an Environmental Compliance Manager, you will play a pivotal role in ensuring our operations adhere to all environmental regulations and sustainability standards. You will be responsible for developing and implementing environmental compliance programs, monitoring performance, and fostering a culture of environmental responsibility within the organization.

Responsibilities

- Develop and implement environmental compliance programs, policies, and procedures.
- Monitor and assess the company's operations to ensure compliance with local, national, and international environmental regulations.
- Conduct regular environmental audits and assessments to identify potential risks and areas for improvement.
- Collaborate with cross-functional teams to integrate environmental sustainability into business strategies and operations.
- Provide guidance and training to employees to raise awareness of environmental issues and promote responsible practices.
- Stay up-to-date with evolving environmental regulations and industry best practices.
- Prepare and submit environmental reports to regulatory agencies as required.
- Lead efforts to obtain and maintain environmental certifications and accreditations.
- Respond to environmental incidents and emergencies promptly and effectively.
- Work closely with external partners, agencies, and stakeholders to foster positive relationships and ensure compliance.

Qualifications

- Bachelor's degree in Environmental Science, Environmental Engineering, or a related field (Master's degree preferred).
- Minimum of 5 years of experience in environmental compliance and management.
- Strong knowledge of local, national, and international environmental regulations.
- Proven experience in developing and implementing environmental compliance programs.
- Excellent project management and communication skills.
- Strong analytical and problem-solving abilities.
- Ability to work collaboratively in a team and across departments.
- Certification in environmental management (e.g., ISO 14001) is a plus.
